-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**  
***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted. It is noted that the restriction is based on the preliminary amendment filed September 22, 2005.

Group I, claim(s) 1-31, drawn to a food product comprising a gelled water based shell and a liquid center wherein the shell comprises a mixture of 50-95% kappa and 5-50% iota carrageenan based on the carrageenan mixture.

Group II, claim(s) 32-34, drawn to a method of making a food product wherein an liquid outer layer and an inner liquid layer are placed in a mold so that the liquid outer layer forms a shell that gels to surround the inner liquid layer, wherein the shell comprises a mixture of 50-95% kappa and 5-50% iota carrageenan based on the carrageenan mixture.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The corresponding feature of Groups I and II is a gelled water based shell encapsulating a liquid center, wherein the shell comprises a mixture of 50-95% kappa and 5-50% iota carrageenan based on the carrageenan mixture. Gilleland et al. (US 6375981) teaches of a gelled water based shell encapsulating a liquid center, wherein the shell comprises a mixture of 50 kappa and 50% iota carrageenan based on the carrageenan mixture (Column 2 lines 13-17, 25-30, 32-38, and 46-48 and Column 3 lines 14-16, 33-43, and 54-59). Thus, the corresponding feature linking Groups I and II was known and is not a special technical feature as it does not relate to a single general inventive concept under PCT Rule 13.1.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
